

STASH

Product Manager

Location	Reading
Salary	Up to £85k
Contract Type	Permanent

This is a unique opportunity join an incredibly exciting and innovative FinTech company which has taken the US by storm. You will be part of the driving force behind our UK brand launch. We have immediate opportunities for great people to join us. You'll help to drive our vision to pioneer the future of personal finance and share our passion for creating social value.

Stash is a digital-first financial services company committed to making saving and investing accessible to everyone. By breaking down barriers and building transparent, technology-driven products, we help the 99% build smarter financial habits so they can confidently save more, grow wealth, and enjoy life. We're an established brand in the US. And now we are expanding to the UK.

THE ROLE:

Stash is looking for a dedicated, motivated, and entrepreneurial Product Manager to help grow the team and product. Our ideal candidate has proven experience launching successful software products in consumer-facing companies, is a master at developing creative solutions to hard problems and evangelises ideas with ease. If you are an open communicator with a passion for data-driven decision making *and* you are excited about changing the world of investing, Stash is looking for you!

WHAT YOU'LL DO:

- Synthesise and juggle inputs/ideas from across the organization, turning suggestions and critiques into potential outcomes and solutions
- Analyse data and gain meaningful insights to drive successful iterations and identify opportunities

- Work collaboratively with stakeholders to resolve conflicts, generate ideas and converge on a project that the whole team can be proud of and learn from
- Communicate openly across the team and org regarding the status of projects in development, as well as results post-launch
- Define specifications in a straightforward, understandable and detailed fashion
- Manage projects in a highly organized, flexible manner while staying focused on mission-critical scope

YOUR BACKGROUND:

- 3+ years working in product management at a mobile B2C software company
- Demonstrated A/B testing skills on tools such as Optimizely, Sitespect or similar
- Experience working in Agile and knowledge of sprint planning & prioritization
- Experience with funnel and conversion analysis in tools such as Google Analytics, Mixpanel, Segment or similar
- Demonstrated knowledge of working with marketing in product personalization, campaign management
- Excitement and passion to innovate in finance using B2C constructs
- Demonstrated user science and user empathy by having conducted primary research with UX tools and worked on storyboarding and/or story mapping
- A proven track record of launching and iterating on successful products
- Experience rallying people around controversial or unconventional directions/solution
- An open mind, flexibility around testing new approaches and the ability to harness failures and turn them into wins

DID WE MENTION THE BENEFITS?

- Competitive salaries
- Equity in Stash,
- Healthcare
- Pension scheme
- Learning and development opportunities
- Substantial employee referral bonuses
- Flexible holidays
- Flexible working
- A great office environment!

WE'D LOVE TO HEAR FROM YOU:
